- 1 horse race wheel
- 1 denim cover
- VERSION 1 - 2 mats **OR** VERSION 2 - 1 mat and 6 horses
-

Instructions for playing:

Version #1

Set up two tables in an L shape. Lay one mat on each table. Center the wheel behind the tables. Bets are placed on the mats for any of the six horses. Spin the wheel. When the wheel stops, the clapper will point to the winning horse and the odds to pay out. The odds are the numbers around the outer edge of the wheel. For example: if the clapper points to the #4 horse, and the odds are indicated by the clapper pointing at the #5, all those who placed a bet on the #4 horse will be paid 5 times what they bet, ie: bet one token...paid back five tokens.

HINT – ALWAYS COLLECT FROM THE LOSERS FIRST, THEN GO BACK AND PAY THE WINNERS.

Version #2

Set up one table and lay the racing mat on the table. Place the wheel behind the table. Set up one horse per track. You play with 6 people, each placing one horse per track. They then place a set amount of tokens. Spin the wheel, when the wheel stops, the clapper will point to the winning horse and the odds number. The odds number are the numbers around the outer edge of the wheel...1-3-5. If the clapper points to the #4 horse, and the odds indicated by the clapper is the #5, the person with the horse #4 would move their horse five spaces down the track. You continue spinning the wheel and moving the horse down the track until one of the horses cross the finish line. That person/horse is the winner. They would receive the tokens or a pre arranged split of the tokens.
